Skills

Languages :

Python

Frontend Development :

HTML , CSS

Projects

Personalised E-Commerce Website For Local Clothing Shops

Minor Project with Team

- Developed a personalized e-commerce platform aimed at supporting local clothing shop owners facing challenges from large online retailers like Flipkart and Amazon.
- The website facilitates direct connections between local shop owners and customers, helping to increase visibility and sales for small businesses.
- Enabled local shop owners to showcase their products with targeted ads, a feature not typically available on larger platforms like Flipkart and Amazon.
- Implemented features such as product listings, user authentication, shopping cart, and secure payment gateways.
